### PRINCIPAL'S REPORT

#### Student Achievement: Our Super Talented Baseball Players

After winning the Australian Senior League Championships earlier this month in Geelong with Athletics, **Charlie Chislett (Year 10, Rutter House)** is off to America later this year to compete in the Baseball Senior League World Series. What an amazing opportunity for Charlie and we wish him all the very best.

**Emily Brennan (Year 10, Rutter House)** has recently returned from Adelaide after being invited to train with the Australian Youth Women's Baseball training program. No doubt that Emily will soon be representing Australia in upcoming international events.

**Will Gaskett (Year 9, Rutter House)** was also competing in the Australian Senior League Championships for the Twins charter, performing exceptionally well, and finishing up 6th overall.

**Lachlan Brennan (Year 8, Rutter House)** represented the Twins charter in Mildura last week for the Australian Intermediate League Championships and came away with the bronze medal. Congratulations Lachlan.

**Nikau Galligan (Year 7, Rutter House)** and **Oliver Von Tunk (Year 7, Stewart House)** are off to Sydney next week to compete for the Twins charter in the Australian Little League Championships. We wish you well in this endeavour.

What amazing talent, and except for Oliver, who belongs to Stewart House, it seems that Rutter House has the monopoly on these up-and-coming champions.

## New Victorian Government Schools Agreement - VGSA

You may be aware that the Australian Education Union has negotiated a new Industrial Agreement with the Government and Department of Education.

All school employees of the Department had an opportunity to vote. The result is that the Agreement has been accepted with 62% of voters voting for the agreement. The agreement is now sitting with the Fair Work Commission for it to be passed by the Commission. It is anticipated that this will occur shortly.

The Agreement includes some changes to pay scales for both teaching and Education Support Staff, and some clear wins around the recognition of Teacher workload both within the designated hours of work and outside of these hours. As such the new VGSA will have ramifications for the face-to-face hours of teaching with a decrease in the secondary sector from 20 hours currently per week currently, to 19 hours in 2023 and 18.5 hours in 2024 to provide teachers with additional time for preparation and planning, marking, providing written feedback, and reporting to name a few.

In addition to this, recognising that school staff do go beyond "the call of duty" so to speak, and that to date there has been a strong reliance on good will when teachers and support staff are called upon to undertake specific duties outside of their designated hours of work (e.g. attend Information evenings, facilitate parent and community forums, overnight school camps etc), they will now be entitled to time in lieu or payment for the extra time they have been required to work.

I can assure you that this will not cover all the good will gestures that teachers and support staff offer our students and families, and I know that there will always be a level of good will continuing within our learning community on the part of our staff as I am sure there will be on the part of our parents/carers, families, and students. However, this gesture does go somewhere to recognising that when school-based staff are required to work outside of their designated work hours there needs to be some level of compensation as there would be in most professions.

Even though the new VGSA is yet to be approved by the Fair Work Commission, we are in the process of doing some modelling as to what these changes may mean for us both in relation to the decrease in face-to-face teaching hours in 2023 and 2024 as well as the process for time in lieu or equivalent payment.

As we progress with this and come to some decisions, I will keep you informed.

## Continuation of the Distribution of Rapid Antigen Test Kits

It seems that the distribution of R.A.T. Kits via schools will continue for a sometime yet. We have tried various methods for an effective distribution of the kits, however, no matter the method, it has proven to be laborious for our administration staff and due to the changing attendance of students, the distribution has been less than effective.

As such we are changing our method of distribution. For the remainder of this term, R.A.T. kits will be distributed throughout this week (week beginning Monday 06 June) and then again in the week beginning Monday 20 June (last week of term).

If you normally rely on your child to collect their Kit, then please ask them to do so any time this week and in the last week of term by coming up to the General Office during their break times to retrieve a Kit.

If you normally collect a Kit yourself then please feel free to come to the general office at any time to do so.

Students will also be informed of the change in process via Compass and a PA announcement.

Should we be required to continue the distribution of R.A.T. Kits, we will advise you accordingly.

## Students Must Remain at Home if Unwell

A reminder to all families that if your child(ren) is/are unwell, they must be kept at home until they are well, and their symptoms subside.

Current absenteeism is not purely due to COVID-19 infections but also because of people contracting colds and the flu.

We envisage that this will continue for some time yet, as we move further into the winter months.

To avoid infecting others please keep your children home when unwell.

**Eltham Primary School visit to EHS - Indonesian Morning**

Last Friday 27 May, Grade 6 students from Eltham Primary School attended and participated in Indonesian cultural and linguistic workshops organised by our Eltham High School Year 10 students.

**Indie Eggleston (Year 10, Rutter House) Summary:**

The Year 10 Indonesian class ran an activity morning for the Eltham Primary School Year 6s, on 27 May. The Year 6s were split into groups, each group rotating through the activities available, each activity being ran by a different group of Year 10s. The activities focused on building confidence among the Year 6s in their knowledge of the Indonesian language; specifically animals, numbers, conversation words, etc. The day ran smoothly and was very enjoyable, not only for the primary schoolers playing the games but also the year 10's running them. Eltham Primary School even gave the Year 10 class chocolates as a thank you. Big thank you to Eltham Primary and Pak Ath for organising and supervising the morning.

**Melohdee Nicholson (Year 10, Rutter House) Summary:**

Friday morning on 27 May, the Year 10s continuing to learn Indonesian welcomed the Year 6s of Eltham Primary School to their potential high school. Our students took the responsibility to organise and run a numerous number of games in groups. The games brought students together giving the opportunity for the younger kids to practice/learn animal and time words and general Indonesian vocabulary. The games consisted of Pictionary, Fly Swat, Buses, What's The Time Mr wolf, and a ball game. Both year levels had lots of fun and enjoyed practising their Indonesian with each other through the fun and interactive games.

Thank you to all students and staff involved!

## SCIENCE

### STEAM Club

STEAM Club is run by Ms. Boysen during lunchtime in Room 802 on Mondays (week B). Bring your lunch, laptop and friends!

### CSIRO Virtual Work Experience Program

The Virtual Work Experience Program (VWEP) allows students the opportunity to experience contemporary ways of working, from homes, and with people across geographic boundaries, just as CSIRO scientists do every day.

VWEP supports students to undertake work experience despite COVID-19 interruptions, and provide opportunities for students who may face geographic or other barriers to participating in traditional work experience.

Students will undertake collaborative, group science, technology, engineering and maths (STEM) projects, including projects linked to real-world CSIRO research and industry challenges. Instead of students attending a CSIRO site, experienced CSIRO staff or STEM industry professionals will supervise groups of students remotely online.

The groups will comprise up to five students who may be remote from each other and who will work together to complete work and tasks that can be used as part of portfolios and help inform their study and/or career plans. Register [here](#) for 2022.

### PULSE@Parkes: New sessions available

Would you like to use the iconic, 64 metre Parkes radio telescope, Murriyang, in real time to observe some of the most extreme objects in space?

PULSE@Parkes is a free program for students in Years 10 to 12. During a session students see how the telescope operates, select pulsars, analyse data, and interact with our team of astronomers. Students can ask questions about astronomy, careers in science, and study options. Sessions run remotely so students across Australia are encouraged to apply.
